What you are doing beautifully.

Your adult-education background is your superpower. Here are five foundational strengths that set you apart from traditional, intimidating tech companies:

Allowing clients to bring a support person for free removes shame and builds instant trust.

2. Bite-Sized Learning

Tackling just one specific concern per session perfectly manages cognitive load.

3. Upfront, Clear Pricing

Your \$0 / \$140 / \$375 tiers eliminate anxiety for budget-conscious seniors.

4. Grounded in Facts

You use real Australian data (ACCC/ABS) instead of scare tactics.

5. Grassroots Community

Meeting people where they are through local Eventbrite workshops is brilliant.
